

Going back to the CDC

I have been staying at home for a very long time now. Mummy and Daddy have told me it's soon time to go back to class.

When I go back to the CDC, I need to do extra things to get ready.

I need to put on my clothes and shoes but I also need to put on my mask!

I'm ready to go to the CDC with Mummy/ Daddy/
Auntie now.

When I arrive at the CDC, I will go to the bathroom and wash my hands with soap and water for 20 seconds

At the door, my teachers will say hi to me. They will be very excited to see me after so long!

I will need to wait patiently and stand still while they check my temperature.

Now I will be all ready to go to the classroom and see my friends.

I will play with toys and have Circle Time.

I will go to different stations for the activities.

I will play group games.

When my class finishes, I will take my bag and say
goodbye to my friends.

Mummy/ Daddy/ Auntie will be waiting at the door for me.

They will want me to use hand gel or wash my hands before I get into the lift to go home. Mummy and Daddy will be happy that I have had fun again at the CDC.
